

Engagement across Europe: The EIPPEE network

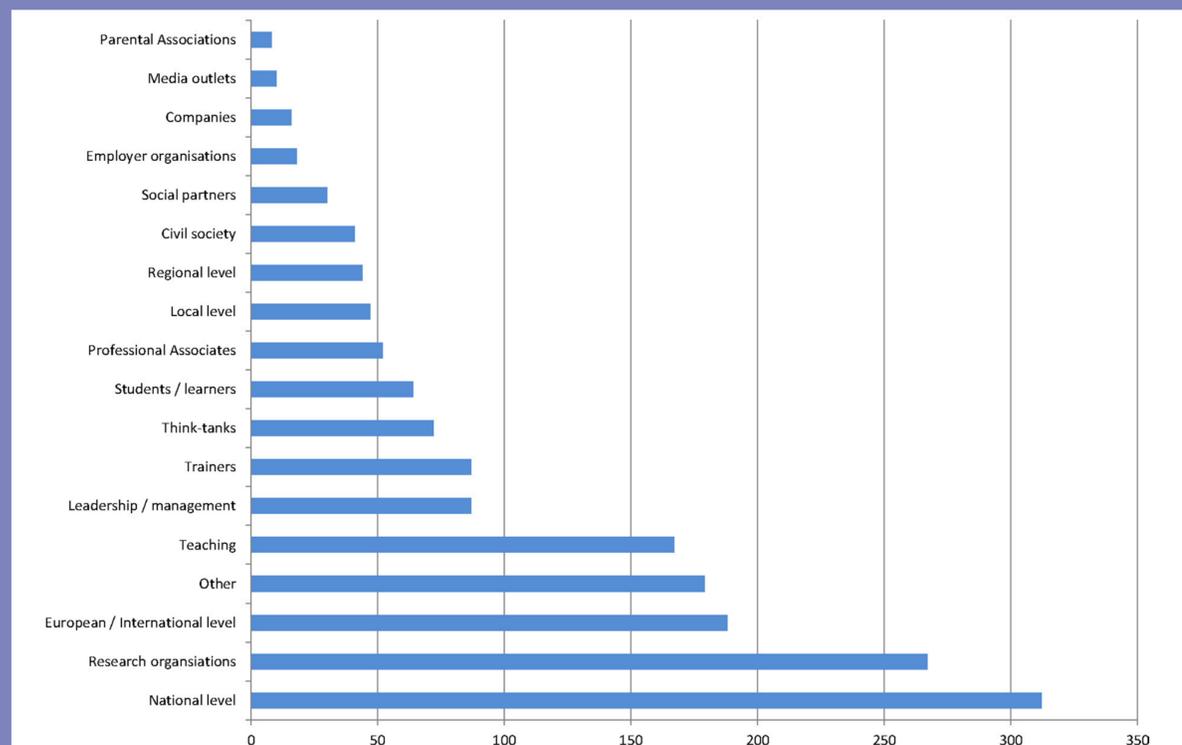

www.eippee.eu

Twitter @EIPPEENet

The main goal of the EIPPEE project is to build capacity in the use of research to inform decisions in education across Europe. This poster illustrates the spread of the international EIPPEE network. The network includes a very wide range of stakeholder types and all countries with the EU are represented as well as a number of countries beyond. Network members are affiliated with organisations from a wide range of education sectors as shown below.
